

## Green Home Advantage

Concord Group Insurance's Green Home Advantage helps policyholders save energy and protect the environment when restoring their homes.

Green Home Advantage is designed for Concord Group Insurance policyholders who are interested in reducing their carbon footprint and protecting the environment. Our customized, competitively priced insurance policies provide protection for your home in the event of a covered loss. Now, by adding our Green Home Advantage endorsement to your policy, you can rebuild the eco-friendly way!

Green Home Advantage provides up to \$20,000 to cover the added expense of rebuilding your home with eco-friendly materials and energy-saving electrical, lighting, and heating and cooling systems. You can also choose to have your building debris recycled instead of disposed.

It's easier to go green with Green Home Advantage from Concord Group Insurance.
